Are you looking for a **quick, easy, secure and FREE** way to keep on top of your nurse licensure status?

In just a few minutes, you can self-enroll into Nursys e-Notify® and receive licensure status updates, track license verifications for endorsement and create and manage multiple license expiration reminders. Keeping on top of your license status can help you prevent fraudulent licenses or certificates being issued in your name.

**Powered by the U.S. boards of nursing, Nursys e-Notify is the National Council of State Boards of Nursing database. It is the only national database for licensure verification of registered nurses (RNs), licensed practical/vocational nurses (LPN/VNs) and advanced practice registered nurses (APRNs).**

Nursys is live and dynamic, and all updates to the system are pushed directly from participating boards of nursing (BON) databases through frequent, secured data updates.

This innovative nurse licensure notification system was previously only available to institutions that employ nurses but is now available free of charge to you.

**Creating an account is quick and easy. Enroll at www.nursys.com/e-notify and select “As a Nurse” to complete the registration process.**

Learn more about Nursys e-Notify by viewing an introductory video or visiting the Nursys website. For questions, contact nursysenotify@ncsbn.org.
MEMBERS OF THE IOWA BOARD OF NURSING

May 1, 2018 - April 30, 2019

TERM ENDS

Gwen Suntken, MS, RN
Chairperson, Representing Nursing Practice
2020

Nancy Kramer, EdD, ARNP, CPNP, CNE
Vice Chairperson, Representing Nursing Education
2019

Kathryn Dolter, RN, PhD
Representing Nursing Education
2021

Mark G. Odden, BSN, MBA, CRNA, ARNP
Representing Nursing Practice
2019

Sue Putnam, LPN
Representing LPN Nursing Practice
2020

BJ Hoffman, Public Member
2020

Patrick Mooney, Public Member
2019

JULY 10, 11, 12, 2019 (JUNE 12, 2019)

AGENDA AND MINUTES ON THE WEB

All Board and Committee agendas are on our website. Agendas are posted at least 24 hours in advance of a meeting. Previous agendas will remain posted until replaced by the current agendas. Board and Committee minutes are posted at our website approximately three (3) months following the meetings.

You can locate our Agendas and Minutes at our website, nursing.iowa.gov, under “About the Board.”

You may subscribe to email notification of the first posting of a meeting or conference call agenda by sending a blank email to: ibon.helpdesk@iowa.gov.

Requests for establishment of new schools, requests for major curriculum change, other special requests, and regular business will be considered at each meeting. Materials must be received in the board office four (4) weeks prior to a scheduled board meeting. For your convenience, behind each board meeting date is the deadline for receipt of materials.
January 14th, 2019, is fast approaching. This is the day that the 2019 Iowa Legislative Session convenes.

I thought it would be a good idea to refresh everyone’s knowledge of how state government works in Iowa, how an idea becomes a law and common definitions used in the legislative process.

You may be asking yourself why this is important to nurses. Among physicians, dentists and pharmacists, nurses constitute the largest number of licensees in the state of Iowa. Currently we are over 60,000 strong.

From time to time the Iowa Board of Nursing introduces legislation – which if it becomes law – impacts the practice of nursing. Throughout the legislative session there may be other bills which impact your rights and privileges as a nurse and a healthcare provider.

As a professional you need to stay informed of the legislative process and bills which impact your profession. Therefore, learn who your state senators and representatives are, become involved in your professional organization, and read the Iowa Board of Nursing Newsletter for current legislation and rule changes which could impact you. Be a voice!

**BRANCHES OF STATE GOVERNMENT:**

In Iowa government there are three distinct branches: legislative, executive and judicial.

The legislative branch creates laws. This branch, the Iowa General Assembly is often referred to as the “Iowa Legislature” or the “Legislature.”

The General assembly is comprised of a Senate and a House of Representatives. The Iowa Senate consists of 50 members, each representing one of the 50 districts in Iowa. The Iowa House of Representatives consists of 100 members. As with the Senate, each Representative serves a separate district.

All Senators and Representatives are elected by registered voters within the district. Senators are elected for four year terms and Representatives are elected for two year terms.

The executive branch is responsible for carrying out the laws which have been passed by the Legislature. This branch is headed by the Governor. The Governor has the final action on all bills passed by the General Assembly. The Governor may sign the bill, veto the bill or take no action on the bill.

The Governor is elected to a four-year term. As chief administrator of Iowa’s government, the Governor is responsible for the various departments and agencies. The Governor appoints the department and agency heads and other state officials which are not subject to public election. The department heads of these agencies are responsible for carrying out the work of the agency and reporting to
the Governor and the General Assembly. A few examples of these agencies are: the Department of Public Health, the Department of Inspections and Appeals and the Department of Education.

In addition to the Governor, the following elected officials are in the executive branch: the Lieutenant Governor, Secretary of State, Auditor of State, Treasurer of State, Attorney General and Secretary of Agriculture. These officials all hold four year terms.

The third branch is the judicial branch. This branch is responsible for interpreting and applying laws to settle civil and criminal cases. Federal courts handle cases that have violated the U.S. Constitution or federal laws passed by the U.S. Congress. The Iowa court system handles cases that involve violations of the state's constitution or laws passed by the state's legislature.

In summary, the Legislature creates and passes Iowa law, the Governor with the assistance of state agencies and departments carries out the laws and Iowa courts resolve violations of the law.

An idea becomes a law:

- An idea is brought to a legislator.
- The idea is drafted into bill language, a proposal for a law.
- The bill must be sponsored by a legislator.
- Bills are assigned to a legislative committee on the Senate or House side.
- The bill must pass out of the committee to be introduced to one of the two chambers, the Senate or House.
- The bill is debated by the members of the chamber and must be voted out of the chamber by a majority vote.
- The bill then goes through the same process in the second chamber.
- The bill must pass each chamber in identical form.
- Once passed by both chambers the bill is sent to the Governor.
- The Governor may sign the bill, veto the bill or take no action on the bill.
- The bill becomes law with the Governor's signature.
- If, during session, the Governor does not sign or veto a bill, it becomes law after three calendar days (except Sundays).
- Bills sent to the Governor three days after the end of the session (except Sundays) must be signed or vetoed within 30 calendar days.
- Bills usually go into effect July 1 after the legislative session.
- The laws are incorporated into the Code of Iowa.

Common definitions used to pass legislation:

ACT – A bill which has been passed by both the Senate and House, enrolled, certified, approved by the Governor or passed over the Governor's veto, and published.

AMENDMENT – A change proposed or made to a bill or motion. Amendments may be offered by committees or individual legislators.

BILL – A legislative proposal sponsored by a legislator or a committee and introduced in the Senate or House. A bill must be approved by both the Senate and House and then by the Governor in order to become law.

CHAMBER – The official meeting place of the Senate or House.

CODE OF IOWA – The official collection of Iowa's permanent laws.

COMMITTEE – A group of legislators chosen to consider and make recommendations on bill and amendments in a particular subject area.

CONSTITUENT – An individual who lives in the district represented by a legislator.

GENERAL ASSEMBLY – The official name of the Iowa Legislature.

LEGISLATOR – an elected member of the General Assembly, either a Senator or a Representative.

LOBBYIST – An individual who encourages the passage, defeat or modification of proposed legislation.

VETO – An Action taken by the Governor to prevent the enactment of an entire bill. The Legislature may override the veto if two-thirds of the members of each chamber vote to pass the bill again.

Understanding and maintaining appropriate professional boundaries with your patients is an expectation for all licensed Iowa nurses. When the nurse establishes a therapeutic nurse-patient relationship and keeps the patient’s needs as the focal point, professional boundaries are maintained. A therapeutic nurse-patient relationship is a balance of kindness, friendliness, and compassion towards the patient, and the recognition that the nurse always holds the power in the relationship. It is the nurse’s responsibility to maintain proper boundaries. Nurses who are over-involved or under-involved with their patients are not maintaining a therapeutic balance. Those who become over-involved risk a boundary crossing or violation.

Nurses are taught that there are appropriate ways to therapeutically use one’s own experiences to help our patients. This can be as simple as stating “I have felt pain, and I understand your pain.” The nurse does not need to go into detail about their pain, or to ask the patient to listen to or counsel the nurse; rather it is merely the acknowledgement of a shared experience that creates the therapeutic connection, places the patient at ease, and allows for the patient's needs to be met. It is when a nurse goes beyond the therapeutic use of a personal experience and uses the patient encounter to meet their own needs that boundary violations may occur.

A clear view of the patient’s needs and keeping the nurse-patient relationship focused on the patient is the responsibility of the nurse. The nurse should not use their role and the patient relationship as a means of receiving physical or emotional gain, or financial benefit beyond their salary or wage. If a patient urges the nurse to become more familiar or to share personal details of the nurse’s life or to have personal interactions, it is the nurse’s responsibility to re-establish appropriate boundaries, seek help from a superior or remove themselves from the nurse-patient relationship.

The Iowa Board of Nursing has issued disciplinary action against licensees who have failed to maintain professional boundaries. Examples include a nurse who expressed to a patient that she was having financial difficulties and proceeded to accept a loan from the patient. This nurse was charged with violating Iowa Code section 147.55(3) and 655 IAC 4.6(5)d” for soliciting, borrowing, or misappropriating money or property from a patient, regardless of patient consent. Another example of this violation involved an advanced practice nurse who wrote controlled substance prescriptions for a patient and requested the patient share the medication with the nurse.

Other situations where the Board has taken disciplinary action involved home care and hospice nurses caring for terminally ill patients and their family members. In one circumstance the nurse commenced a romantic relationship with the surviving spouse shortly after the primary patient passed; in another the nurse married the surviving spouse within weeks of the primary patient’s death. In these cases, the licensees were charged with engaging in a sexual, emotional, social, or business relationship with a former patient when there is a risk of exploitation or harm to the patient, regardless of patient consent, pursuant to Iowa Code section 147.55(3) and 655 IAC 4.6(5)f” and with violating professional decorum.
It is important to note that Board rules include family members in the definition of a patient. Patient consent is not a defense to a professional boundary violation, though it is often raised by licensees as a defense or a mitigating factor. It is always the responsibility of the nurse to maintain the professional boundary or to seek to be removed from caring for the patient if that is impossible.

A professional boundary violation can also occur when a nurse makes no actual sexual contact with a patient, but perhaps makes lewd, suggestive, demeaning, or otherwise sexual comments to a patient, regardless of patient consent, which is a violation of Iowa Code section 147.55(3) and 655 IAC 4.6(5)”b”. Similarly, a nurse can commit a professional boundary violation if he or she repeatedly divulges personal information to a patient for nontherapeutic purposes, regardless of patient consent, which is a violation of Iowa Code section 147.55(3) and 655 IAC 4.6(5)”e”. Examples of these violations can occur when an overly friendly or casual demeanor is adopted between the nurse and patient, and oftentimes involves nurses and patients becoming social media friends or extending the relationship beyond the therapeutic role or the work setting.

More flagrant situations involving professional boundary violations are those where sexual overtures or sexual contact between nurse and patient occur. In these circumstances nurses who have had sexual contact with a patient or initiated the contact or relationship have been charged with either sexual contact with a patient, regardless of patient consent, pursuant to Iowa Code section 147.55(3) and 655 IAC 4.6(5)”a”; or with initiating, or attempting to initiate, a sexual, emotional, social, or business relationship with a patient, for personal gain, regardless of patient consent, pursuant to Iowa Code section 147.55(3) and 655 IAC 4.6(5)”c”.

The Iowa Board of Nursing has the authority and responsibility to discipline licensees who violate professional boundaries. Sometimes this discipline has been license suspension or revocation. Oftentimes discipline involves remedial education on the topic of professional boundaries and license probation to observe that a change in the nurse’s conduct and improvement in professional demeanor has occurred.

The staff of the Enforcement Unit of the Iowa Board of Nursing is available to answer questions regarding professional boundaries.

---

THE NATIONAL TRANSPORTATION SAFETY BOARD issues the following recommendation for licensed professionals with prescriptive authority: “Remember to routinely discuss with patients the effect a person’s diagnosed medical conditions or prescription medications may have on his or her ability to safely operate a vehicle in any mode of transportation.”

In respect to best practices, also remember to document patient teaching regarding the above recommendation.
THE FUTURE OF PAPERLESS LICENSURE

During the October 2018 board meeting, the Iowa Board of Nursing (IBON) members discussed the future of transitioning to paperless licenses.

HOW DO WE CURRENTLY ISSUE LICENSES?

Currently a nurse receiving an initial license and licensure by endorsement receives a paper wallet card and a 5” x 7” certificate for their first Iowa license. A nurse receives a paper wallet card on renewal, reactivation and reinstatement. All licenses can currently be validated online by referring to the following options:

- IBON website at https://nursing.iowa.gov. Select “IBON Online Services” and then select “Secured Access” and sign in using your account ID and password. You will then be able to find your license information by last name and last four digits of your social security number.

- National Council of State Boards of Nursing (NCSBN) at www.nursys.com. Select “Quick Confirm” license verification and follow the prompts.

WHAT WOULD GOING PAPERLESS LOOK LIKE IN THE FUTURE?

A nurse would complete the appropriate application process and instead of receiving a paper wallet card in the mail they would receive an email after their application is complete stating they hold an active Iowa license, with a number and information concerning verifying their license online. A 5” x 7” certificate would continue to be sent out for an initial license and an endorsement license at this time.

WHAT ARE THE BENEFITS OF GOING PAPERLESS?

- The best licensure verification is obtained online
- Licensure status can be verified electronically anytime from anywhere
- Licensure status is updated in real time
- The threat for fraud is virtually taken away
- Staff time in sending out wallet cards is eliminated
- The licensing process becomes more efficient.

According to NCSBN Member Board Profiles, 32 states issue initial licenses paperless and 39 states issue renewals paperless. Iowa Board of Nursing staff is in the process of exploring the operations of going to paperless licenses. Continue to follow this initiative and the timeline for the transition in the Iowa Board of Nursing Newsletter, the website and on the Board’s Facebook page.
WHY GO PAPERLESS?

by Maggie Schwarck, MSN, RN, Associate Director of Licensing Administration

APPLICATIONS:
The best application method is to apply online. It benefits you with:

- faster application processing
- increased security of your personal information
- increased security of your fee payment
- decreased errors due to transferring your information from paper to the electronic database, and
- decreased errors due to illegible handwriting.

Please apply at nursing.iowa.gov and select IBON Online Services. If it is the first time that you have used IBON Online Services, you will need to create an account with a user ID and password that you will use every time you utilize this service. It is important that you keep your account ID and password in a place where you can easily retrieve it.

LICENSURE STATUS:
The best licensure verification is obtained online. It benefits you because:

- licensure status can be verified electronically anytime from anywhere, and
- license status is updated in real time.

Online License Verification Options:

- IBON website at https://nursing.iowa.gov. Select “IBON Online Services” and “Secured Access” then sign in using your account ID and password. You will then be able to find your license information by last name and last four digits of your social security number.
- National Council of State Boards of Nursing (NCSBN) at www.nursys.com. Select “QuickConfirm” license verification and follow the prompts.

PAPERLESS SAVES MONEY, TIME AND BENEFITS THE ENVIRONMENT!

FOLLOW THE BOARD ON FACEBOOK BY LIKING OUR PAGE. YOU CAN ALSO FIND US ON TWITTER!
The Iowa Board of Nursing requests that licensees and the public use the board website [nursing.iowa.gov](http://nursing.iowa.gov) for 24-hour access to online license renewal and verification, address changes and general information.

Use the following contacts for specific questions. If you inquire about your licensure status or request written materials, provide the following information at the beginning of the call/message: Iowa license number, full name, mailing address, and phone number including area code.

Additional note:
If you can remember neither your login i.d. nor your password, AND your email address has changed, you have two choices:
1. Create an new and different login i.d. and password. The new login i.d. must be different from the one you initially created, i.e., SuzySmith@iowaid could become Suzy.Smith2@iowaid.
2. You can request assistance through the state’s Help Desk from the links available in the lower right of the login screen, or by calling 515-281-5703, or 1-800-532-1174.
At the October 4, 2017 Board meeting, the Iowa Nurses Foundation requested the following: “The Iowa Nurses Association and the Iowa Nurses Foundation are requesting the Iowa Board of Nursing support and file legislation to authorize the use of Board funds to support students and graduates of registered nurse and graduate nurse education in Iowa.”

The members of the Iowa Board of Nursing (IBON) discussed the request and directed staff to establish a workgroup to explore the allocations of IBON funds to support loan forgiveness or nursing scholarships.

The first meeting of the Loan Forgiveness and Scholarship Workgroup was on Friday, February 16, 2018, at the Iowa Board of Nursing (IBON) office. Members of this workgroup included: Kathy Weinberg, Executive Director; Board staff: Laura Hudson, Jimmy Reyes, Margaret Armagost, and Maggie Schwarck; Board members: Gwen Suntken and B.J. Hoffman. Other members, Kendra Williams/Perez, Allen College director; Iowa Nurses Association (INA) representatives, Jann Ricklefs and Lisa Caffery; INA/Iowa Nurses Foundation (INF) representative, Lorinda Inman; and assistant attorneys general, Laura Steffensmeier and Alan Nagel.

During this meeting, the following topics were discussed: Workforce patterns and trends, Iowa College Student Aid Commission's role in the distribution of funds for the loan forgiveness program, IBON revenue, expenditures, and rollovers, and rules and regulations on scholarships from five states. In addition, the workgroup discussed the importance of developing a survey to request the perspectives from Iowa nurses on the use of IBON funds for scholarships and loan forgiveness. The following questions were used in the survey:

- Demographic questions
- Are you in favor of the Board using its money to provide scholarships for nursing students?
- Are you in favor of the Board using its money to provide loan forgiveness for licensed nurses?
- How should the Board fund a scholarship and/or loan forgiveness program?

Board staff developed and implemented the survey based on workgroup member feedback and it was transmitted to licensees on Friday, March 9, 2018, and again on Thursday, May 3, 2018. Methodology, sample size, results and interpretation of findings were summarized.

The results and interpretation of findings were discussed during a second workgroup meeting held on June 15, 2018, at the IBON office. Mr. Todd Brown form the Iowa College Student Aid Commission was an invited guest and provided an overview of the Nurse Educator Loan Forgiveness Program (now called the Health Care Loan Repayment Program) which will be in effect as of July 2018.

At the July 11, 2018, board meeting, Todd Brown from the Iowa College Student Aid Commission gave a brief overview of the Health Care Loan Repayment Program (previously the Nurse Educator Loan Forgiveness Program).

The Board discussed the survey sent to all Iowa nurses in March and May of 2018. The Board noted that the results of the survey did indicate nurses were in favor of allocating funds to the Loan Repayment Program, but comments received indicated that nurses are not in favor of raising fees.

In regards to a fee increase and having a dedicated amount going to the Health Care Loan Repayment Program, it was noted that it may be difficult to have legislators support a fee increase.

The Board also discussed the uncertainty of future revenue, expenditures, and rollover of IBON funds. The Board requested that staff explore having a five-year projected budget completed to give a picture of future IBON funds before any decisions were made concerning the allocation of IBON funds.

Iowa Workforce Development – Labor Market Information Division is working with the IBON to outsource an actuary to complete the budget projection. The timeline for completion of the projected budget is 3 to 6 months.
The Iowa Center for Nursing Workforce welcomes two new members appointed by the Iowa Board of Nursing at the July 2018 meeting. Dr. Mary Tarbox, Dean of the Martin-Herold College of Nursing & Health at Mount Mercy University, will represent the Iowa Action Coalition. Amy Skelton, RN, Director of Nursing from the Pleasantview Home in Kalona, was appointed to represent a nurse educated at the ADN or BSN level. A full list of committee members can be seen below.

*UPDATED 09/17/2018*
The Iowa Healthiest State Initiative and the Iowa Action Coalition is counting on nurses to help them get their message out! What could you do, as an individual, to get involved? Or, how about getting your co-workers together for a work project? Although directed at children, the concepts in this campaign apply to all ages. Take a look at the fact sheets provided by the 5-2-1-0 Health Choices Count campaign. If the 60,000+ Iowa nurses would adopt these suggestions in their households and workplaces, imagine the impact we could make on the health of our communities! Check out the available resources by registering with the 5-2-1-0 campaign at http://bit.ly/5210campaign.

**IOWA HEALTHIEST STATE INITIATIVE**

---

Iowa's 5-2-1-0 campaign encourages people to:

- Eat at least 5 servings of fruits and vegetables every day.
- Limit recreational screen time to 2 hours or less every day.
- Be active for 1 hour or more every day.
- Get 0 sugary drinks every day.

**5 EAT AT LEAST FRUITS + VEGETABLES EVERY DAY**

**REDAK'S RULES**

**Try it!**
- Try fruits and veggies different ways and try at least a couple of times each week. It can take 7 to 10 times before you like a new food, so be open to trying again and again. It may become your new favorite!
- Many fruits and veggies taste great with a dip or dressing. Try salad dressing, yogurt, nut butter, or hummus.
- Make a fruit smoothie with yogurt.

**Mix it!**
- Add veggies to foods you already make like pasta, soups, casseroles, pizza, rice, etc.
- Add fruit to your cereal, pancakes, or other breakfast foods.

**Slice it!**
- Keep washed and chopped veggies and fruits in the fridge so they are ready to grab and eat.
- Most people prefer crunchy foods over mushy ones. Enjoy vegetables fresh or lightly steamed, and avoid overcooking.

**Did you know?**
A diet rich in fruits and vegetables provides vitamins, minerals, and phytochemicals, important for supporting growth and development, and for optimal immune function. This resource is adapted from Let's Get Moving, www.letsgetmoving.org.

---

**2 LIMIT RECREATIONAL SCREEN TIME HOURS OR LESS EVERY DAY**

Keep TV/Computer out of bedroom. No screen time under the age of 2.

- **Life is a lot more fun when you join in!**
- **Try These Activities Instead of Watching TV.**
  - Ride a bike.
  - Go on a nature hike.
  - Put together a puzzle.
  - Turn on music and dance.
  - Read a book or magazine.
  - Spend time catching up with your family.
  - Take your kids to the park or beach.
  - Play board games.
  - Walk, run, or jog.
  - Start a journal.
  - Play ball (basketball, catch, soccer, etc.).
  - Go to the library.
  - Explore free activities in your community.
  - Rollerblade.
  - Play charades.
  - Go play in the snow (e.g., sled, ski, snowshoe, build a snowman or fort).

**Tame the TV and Computer!**
Set Limits and Provide Alternatives.
- Set some basic rules, such as no TV or computer before homework or chores are done.
- Do not watch TV during mealtime.
- Use a timer. When the bell rings, it’s time to turn off the TV.
- Eliminate TV time during the week.
- Set family guidelines for age-appropriate shows.
- Make a list of fun activities to do instead of being in front of a screen.
- Keep books, magazines, and board games in the family room.

**Healthy Screen Time Means:**
- No TV/computer in the room where the child sleeps.
- No TV/computer under the age of 2.
- One hour of educational TV/computer time between ages 2 and 5.
- After the age of 5, two hours or less per day.

Did you know?
- Screen time includes time spent on TV, computers, gaming consoles, handhelds, tablets, and smartphones. It’s important to limit the use of ALL screens.
- Watching TV is associated with more smoking and increased obesity.
- Too much TV has been linked to lower reading scores and attention problems.

---

This resource is adapted from Let's Get Moving, www.letsgetmoving.org.

REMINDER:

Get at Least One Hour of Physical Activity Every Day!

Physical Activity Can Be Free and Fun!
- Take a walk with your family
- Play with your pet
- Play tag
- Take a bike ride (remember to wear your helmet)
- Turn on music and dance
- Jump rope
- Play Frisbee
- Take the stairs
- Park the car at the end of the parking lot
- Make snow angels

Make Physical Activity Easier:
- Make gradual changes to increase your level of physical activity.
- Track the level of your physical activity using a pedometer, fitness band, or online tracker.
- Choose toys and games that promote physical activity (e.g., balls, hula hoops, jump ropes, scarves).
- Do physical activities together with friends or family.
- Turn off the TV and computer and keep them out of the bedroom.
- Limit recreational screen time (e.g., TV, computer, video games, etc.).
- Encourage lifelong physical activity by incorporating it into your routine.
- Keep physical activity fun! You’ll be more likely to do it.

Put limits on juice!
- Juice products labeled “soda,” “drink,” or “punch” often contain 5% juice or less. Sometimes, the only difference between these “juices” and sodas is that they have added vitamin C.
- Always try to choose whole fruits over juice.
- Suggest a glass of water or milk instead of juice.
- If you choose to serve juice:
  - Buy 100% juice.
  - Each day, juice should be limited to:
    - 4-6 ounces for children 1-6 years old.
    - 8-12 ounces for children 7-18 years old.
    - No juice for children 6 months and under.

Be a Role Model:
- Schedule active family play time daily.

Water!
Keep It Handy, Keep It Cold:
- Keep bottled water or a water bottle on hand.
- Fill a pitcher of water and keep it in the fridge.

Liven It Up, Make It Fruity:
- Add fresh lemon, lime, or orange wedges to water for some natural flavor.
- Try mixing water with a splash of juice.

Be a Role Model:
- Drink water when you’re thirsty.
- Replace sodas with water instead of other sugar-sweetened beverages, such as juice or sports drinks.

Water is fuel for your body:
- Between 70-80% of our body is made up of water.
- When you exercise, you sweat, and when you sweat, you LOSE water! It is important to replace the water you lose when you sweat.
- Water is the #1 thirst quencher!
Question: How many times during nursing school did you hear the phrase “If it isn’t documented – it isn’t done?”
Answer: Every day throughout nursing school we were reminded by our instructors to carefully document everything we executed in patient care. Remember all of those care plans you constructed and submitted? Can you recall the painstaking process of learning how to document your physical assessments? We had to practice, practice, practice to document, document, document! That documentation is critical to all the members of the healthcare team and becomes a permanent part of the patient’s medical record. Either you document accurately, or it’s the same as if you didn’t do what you really did in patient care.

Accurate documentation about your continuing education (CE) activities is also crucial. It’s crucial to the renewal of your nursing license and can be audited at any time by the Iowa Board of Nursing (IBON). “Continuing education” means that education which is obtained by a professional or occupational licensee in order to maintain, improve, or expand skills and knowledge obtained prior to initial licensure or to develop new and relevant skills and knowledge” (Iowa Code, chapter 272C.1). It is also the law that the IBON issues the rules describing the CE requirements for nursing license renewal in Iowa. (Iowa Code, chapter 272C.2).

The IBON’s CE rules are set forth in 655 Iowa Administrative Code (IAC), chapter 5, Continuing Education. It is the licensee’s responsibility to obtain and maintain the documentation for the CE coursework taken to renew your license. It is also the licensee’s responsibility to pay for their continuing education, make sure that it meets the appropriate subject matter criteria, and that you are taking coursework from approved providers of nursing CE in Iowa or in other states with mandatory continuing education requirements.

I receive phone calls every week from licensees who ask where they can find their CE documents. That is a big, red flag! The nurses go on to tell me that they don’t have their records and they just assumed the IBON has them. Often times it is a situation where the nurse has taken coursework through their employer’s learning management system. They assumed their records were safe and didn’t think to save a copy of their CE certificates for their own records. Then, they leave employment and find out later that their records are no longer accessible to them. Because it isn’t documented – these nurses need to start over with their nursing CE requirements.
Personally, I keep a notebook where I store the certificates of completion for every CE activity that I complete. The notebook is stored in a safe place where no one else can accidentally throw it out or use the documents for scratch paper. I keep a running tally of the hours I have completed throughout my licensure period and periodically glance at that total to make sure that I will meet the 36 contact hour requirement by the time my license needs to be renewed. When I renew my license, I move the documents from my prior license period to the back of the notebook and start a new sheet for the next renewal. I keep the immediate prior license renewal documents, because the administrative rules require licensees to keep their CE certificates for four years and we renew our license every three years.

If you are someone who keeps electronic records and copies, make sure you have a back-up of where you store the items. In the event your computer or phone crashes, hopefully you could recover your documents from your back-up storage location. I know of some approved CE providers who offer electronic storage of CE records. Check with the requirements of those providers because you may have to maintain and pay for a subscription to retrieve your CE documents.

Good and accurate documentation should be on the mind of every nurse, every day. The way we document is how we communicate with the next healthcare provider about the progress and needs of our patients and clients. The way you document your CE and lifelong learning activities is the law – and it communicates how you value the license you have worked hard to earn and maintain.

RENEWAL REMINDER

Licensees should plan to renew their nursing license 30 to 60 days prior the expiration date. A nursing license may be renewed until midnight of the expiration date without penalty, but this practice is discouraged. Online system problems can occur and late fees will be assessed for any renewal completed after midnight of the expiration date.

EXPIRATION DATE OF CURRENT RENEWAL | RENEWAL DATES | LATE FEE ASSESSED | INACTIVE STATUS IF NOT RENEWED
--- | --- | --- | ---
October 15, 2018 | August 15, 2018 – October 15, 2018 | October 16 | November 16, 2018
November 15, 2018 | September 15, 2018 – November 15, 2018 | November 16 | December 16, 2018
December 15, 2018 | October 15, 2018 – December 15, 2018 | December 16 | January 16, 2018
January 15, 2019 | November 15, 2018 – January 15, 2019 | January 16 | February 16, 2019

A $50 late fee is required for licensees who renew within the 30 days after the license lapses. Licenses that are not renewed will automatically be placed on inactive status on the 16th of the month following the expiration date of the license.

The continuing education requirement for all license renewals is 36 contact hours (3.6 CEUs) of nursing continuing education. Before you renew, you should have your documentation in-hand to confirm you have what you need. As soon as you renew, you will know if you have been chosen for audit. Remember, if it is not documented – it is not done!

Effective 1/1/2018, all license renewals require 36 contact hours of continuing education, regardless of the term of the license.
WORKPLACE DRUG TESTING: TO TEST OR NOT TO TEST?

by Rhonda Ruby, Iowa Nurse Assistance Program Coordinator

The Iowa Board of Nursing frequently receives questions from employers about drug testing. Although the Board does not provide testing oversight, the Board is committed to helping employers establish best practices with workplace chemical screenings. To help navigate workplace drug testing, the Iowa Board of Nursing is providing excerpts from the copy of the “A Guide to Workplace Drug Testing in Iowa,” prepared by the Governor’s Office of Drug Control Policy. This guide can be used by employers to determine if drug testing is appropriate for their facility and help employers remain in compliance. The guide is informational only. The Board of Nursing did not develop or write the guide. It is intended for general use and not intended as legal advice. Questions regarding workplace drug testing may be directed to the Governor’s Office of Drug Control Policy, 515-725-0300.

A complete copy of the guide is available on the Governor’s Office of Drug Control Policy website, https://odcp.iowa.gov/drug-free-workplace.

Updated 7-2-18

A GUIDE TO
WORKPLACE DRUG TESTING
IN IOWA

Prepared by the
Governor’s Office of Drug Control Policy
Pape State Office Building
215 E. 7th Street, 5th Floor
Des Moines, Iowa 50319 https://odcp.iowa.gov Phone 515-725-0300

Note: This informal guide is for general information purposes only, and does not constitute legal advice. Iowa employers are encouraged to seek legal counsel before implementing or revising a drug-free workplace policy.

TO TEST OR NOT TO TEST?

The purpose of the State of Iowa’s private sector drug testing law— Iowa Code Section 730.5 (Iowa Administrative Code Section 641)—is to enhance worker safety by creating workplaces that are free of drugs and substance abuse or misuse. One tool available to private sector employers is drug testing (inclusive of alcohol testing), that often is coupled with educational efforts as part of a comprehensive drug-free workplace program.

Each employer must first decide if drug and/or alcohol testing is appropriate for them. Under Iowa law, workplace drug or alcohol, testing is optional for private sector employers. Federal laws or regulations governing drug or alcohol testing supersede state law in Iowa. Before making a decision on drug or alcohol testing under Iowa law, several factors should be considered, including, but not limited to the following:

A. Types of private sector workplace drug testing permitted in Iowa:

1. Unannounced testing of workers randomly selected from pools of employees, consisting of (a) the entire employee population at a particular work site, (b) the entire full-time active employee population at a particular work site, or (c) all employees at a particular work site who are in a pool of employees in a safety-sensitive position;

2. Testing of employees during, and after completion of drug or alcohol rehabilitation;

3. Testing of employees for reasonable suspicion, which may include (a) direct observation of substance abuse or related impairment while at work, (b) abnormal conduct or significant deterioration in performance while at work, (c) a credible report of alcohol or drug use, (d) evidence of tampering with a drug test, (e) evidence that an employee has caused an accident while at work causing sufficient injury or damage to require a report to OSHA, or (f) evidence that an employee has made, sold, possessed or used drugs while at work;

4. Testing of prospective employees;
5. Testing of employees, as required by federal law or regulation or by law enforcement; and
6. Testing of employees in the investigation of workplace accidents that cause sufficient injury or damage to require a report under Iowa Code chapter 88, or that result in damage to property in an amount reasonably estimated at the time of the accident to exceed $1,000.

B. Employer responsibilities when drug testing in Iowa include:

1. Prior to testing, the employer must establish a detailed written drug testing policy that is provided to every person subject to testing and made available for review by employees and prospective employees. Special provisions apply to dealing with minors.
2. Prior to testing, the employer must establish an employee awareness program to include an Employee Assistance Program or a resource file where workers can access help for substance abuse problems.
3. The employer must provide supervisors with a minimum of two (2) hours of training initially, and one (1) hour of training each year subsequently. The initial two hour training must include, but is not limited to, (1) information concerning the recognition of evidence of alcohol and other drug abuse, (2) the documentation and corroboration of employee alcohol and other drug abuse, and (3) the referral of employees who abuse alcohol or other drugs to the employer assistance program or the resources file.
4. In the event of a positive alcohol test in which the alcohol concentration exceeds the level established by the employer—and under certain other conditions—the employer may be required to pay up to $2,000 in rehabilitation costs for the employee in question, depending on employee benefit plan coverage. This requirement applies only to employers with at least 50 employees and only if the employer has employed the employee for at least 12 of the preceding 18 months; the employee is a first-time violator of the employer’s substance abuse policy; and the employee agrees to receive rehabilitation, if required by the employer’s policy.
5. A laboratory doing business for an employer that conducts drug or alcohol tests must file an annual report with the Iowa Department of Public Health by March 1 of each year concerning the number of positive drug and alcohol test results during the previous calendar year.

PUT IT IN WRITING

Private sector drug or alcohol testing is optional in Iowa. However, employers who choose to test can do so only after developing and disseminating a written policy. Here are some things to keep in mind when developing a written policy.

1. Drug or alcohol testing must be conducted within the terms of a written policy.
2. The written policy must be provided to every employee subject to testing, and be available for review by employees and prospective employees. Typically, employees and prospective employees are asked to sign a certification that they have read and understand the policy as a condition of their employment. Many times, the employer’s Drug-Free Workplace Policy will be included in an employee manual. Additionally, some employers may choose to post the policy in common areas.
3. In the case of a minor, the employer must provide a copy of the written policy to a parent of the employee or prospective employee and receive acknowledgement from the parent that a copy of the policy has been received (i.e., certified mail, return receipt requested).
4. The employer’s written policy must provide uniform requirements for disciplinary or rehabilitative actions that will be taken against an employee who tests positive for alcohol or drugs, or who refuses to provide a testing sample.
   An employer may not take any action against an employee that is not stated in the written policy.
5. If the written policy provides for alcohol testing, the employer must establish a standard for alcohol concentration that will constitute a violation of the policy. The standard for alcohol concentration shall not be less than .02 (as amended in 2018), expressed in terms of grams of alcohol per 210 liters of breath, or its equivalent.

An employee or prospective employee who tests positive for drugs or alcohol, or who refuses to provide a testing sample—in violation of the employer’s written policy—may be subject to disciplinary and/or rehabilitative actions, including, but not limited to:

1. Employer-provided or approved rehabilitation, treatment or counseling (*see conditional requirement in the case of certain positive alcohol tests);
2. Suspension of an employee, with or without pay, for a designated period of time;
3. Termination of employment;
4. An employer’s refusal to hire a prospective employee; or
5. Other adverse employment action, in conformance with the employer’s written policy, including relevant collective bargaining agreement provisions.

Remember, these actions—individually or in combination—are options available to private sector employers, and can only be executed if they are so stated in the employer’s written policy.
General drug/alcohol testing questions relating to Iowa “state” law:
Governor’s Office of Drug Control Policy (Dale Woolery)

Who Runs INAP?

The Iowa Nurse Assistance Program (INAP) is authorized by the Iowa Board of Nursing to assist nurses in the early identification and treatment of impairment and illness. INAP is managed by a committee who works with the program coordinator. Committee members include the director of the Iowa Board of Nursing, substance and mental health professionals, nurses recovering from addiction, and a public member.

The INAP committee may:

1) Evaluate on a case by case basis whether candidates are appropriate for the program.
2) Submit recommendations to the Iowa Board of Nursing.
3) Monitor the recovery process of participants.

Who Runs INAP?

The Iowa Nurse Assistance Program (INAP) is authorized by the Iowa Board of Nursing to assist nurses in the early identification and treatment of impairment and illness.

INAP is managed by a committee who works with the program coordinator. Committee members include the director of the Iowa Board of Nursing, substance and mental health professionals, nurses recovering from addiction, and a public member.

Who may be eligible for the program?

- Nurses who voluntarily report themselves
- Nurses with any physical or mental condition affecting their practice
- Nurses who use alcohol or drugs to the extent their practice is affected

Referrals may come from:

- Self-referral
- Board referral
- Licensure department
- Enforcement
- Employer complaints

Impairment can cost your job and license.

INAP Serves Nurses:

- Consultation upon entering program
- Early intervention and treatment referrals to local support services
- Ongoing monitoring and support as an effective alternative to discipline

INAP Serves the Public:

- Public protection through close monitoring to ensure safe practice
- Coordination with employers to assure patient safety and a smooth transition back to nursing practice
